Join Our Discord Server

Connect with fellow finance and accounting professionals who are learning data analytics and automation. Our Discord community is a space for:

- **Asking questions** about Python, pandas, and data analytics
- **Sharing your projects** and getting feedback
- **Networking** with like-minded professionals
- **Getting help** with the mystery series challenges
- **Staying updated** on new blog posts and resources

Join PANDAUDIT Discord (https://discord.gg/hDQKM6ar)

What You'll Find on Discord

Channels

- **General Discussion** - Chat about data analytics, finance, and accounting
- **Help & Support** - Get assistance with coding challenges
- **Mystery Series** - Discuss and collaborate on mystery challenges
- **Resource Sharing** - Share useful tools, articles, and tutorials
- **Introductions** - Meet other community members

Community Guidelines

We're committed to maintaining a welcoming, supportive environment. Please be respectful, helpful, and constructive in all interactions.

Discord Integration Resources

If you're interested in setting up similar Discord integrations for your own community or organization, check out our comprehensive documentation:

- Discord Integration Overview (DISCORD_SETUP) - Complete setup guide for webhooks and notifications
- Discord Bot Setup Guide (DISCORD_BOT_SETUP) - Deploy a community management bot
- Discord Server Guide (DISCORD_SERVER_GUIDE) - Best practices for server structure and management

These guides cover everything from automatic blog notifications to full community moderation bots.

Stay Connected

Follow us on Discord for the latest updates, and don't forget to check out our Blog (/blog) for new articles and tutorials on data analytics in finance and accounting.
